International Journal of Mineral Processing, 35 (1992) 301–302
Elsevier Science Publishers B.V., Amsterdam

Contents Volume 35 (1992)

Research papers

Mathematical model for the entrainment of hydrophilic particles in froth flotation
V.M. Kirjavainen (Helsinki, Finland) 1

The simulation and identification of flotation processes by use of a knowledge based model
M.A. Reuter and J.S.J. van Deventer (Stellenbosch, South Africa) 13

A study of axial mixing in column flotation
M.J. Mankosa, G.H. Luttrell, G.T. Adel and R.H. Yoon (Blacksburg, VA, USA) 51

Fluid flow model of the hydrocyclone: an investigation of device dimensions
T.C. Monredon, K.T. Hsieh and R.K. Rajamani (Salt Lake City, UT, USA) 65

The effect of prolonged agitation in lead ion solution on ethylxanthate adsorption and surface characteristics of cerussite
S.R. Popov and D.R. Vučinić (Belgrade, Yugoslavia) 85

The separation of magnetite from silica particles by centrifugation using two immiscible liquids
X.X. Jiang and K.N. Han (Rapid City, SD, USA) 101

Dispersion selectivity and heterocoagulation in apatite–hematite–phlogopite fine particle suspensions. I. Dispersion of single minerals
Q. Wang and K. Heiskanen (Espoo, Finland) 121

Dispersion selectivity and heterocoagulation in apatite–hematite–phlogopite fine particle suspensions. II. Dispersion selectivities of the mineral mixtures
Q. Wang and K. Heiskanen (Espoo, Finland) 133

Book review

Extraction Metallurgy (3rd ed.), by J.D. Gilchrist — S. Heimala 147

Research papers

Estimating the breakage and selection functions for a continuous mill
J.K. Pettersen and K.L. Sandvik (Trondheim, Norway) 149

Settling velocities of particulate systems. Part 8. Batch sedimentation of polydispersed suspensions of spheres
F. Concha, Ch.H. Lee and L.G. Austin (University Park, PA, USA) 159

On the role of the ion composition of the aqueous phase in the flotation of fluorite and calcite
V.V. Morozov (Moscow, Russia), H. Baldauf and H. Schubert (Freiberg, Germany) 177

Physico-chemical processing of low grade manganese ore
T. Sharma (Dhanbad, India) 191

Collision efficiency for fine mineral particles with single bubble in a countercurrent flow regime
A. Nguyen Van and S. Kmeť (Košice, Czechoslovakia) 205

The recovery of copper and zinc from a sulphide concentrate using sulphate roasting, acid leaching and solution purification
C.J. Ferron (Lakefield, Canada) and J. De Cuyper (Louvain, Belgium) 225

In-situ FT-IR/IRS investigation of double-bond reactions of adsorbed oleate at a fluorite surface
J.J. Kellar (Rapid City, SD, USA), C.A. Young and J.D. Miller (Salt Lake City, UT, USA) 239

Activation of sphalerite flotation in the presence of lead ions
R. Houot and P. Raveneau (Vandoeuvre, France) 253
Effects of operating parameters on vibration signal under laboratory scale ball grinding conditions
Y. Zeng and E. Forssberg (Luleå, Sweden) 273

Letter to the Editor
Preconcentration of an Italian talc by magnetic separation and attrition
L. Piga and G. Marruzzo (Rome, Italy) 291

Announcement 299
